

### Forget Password Process

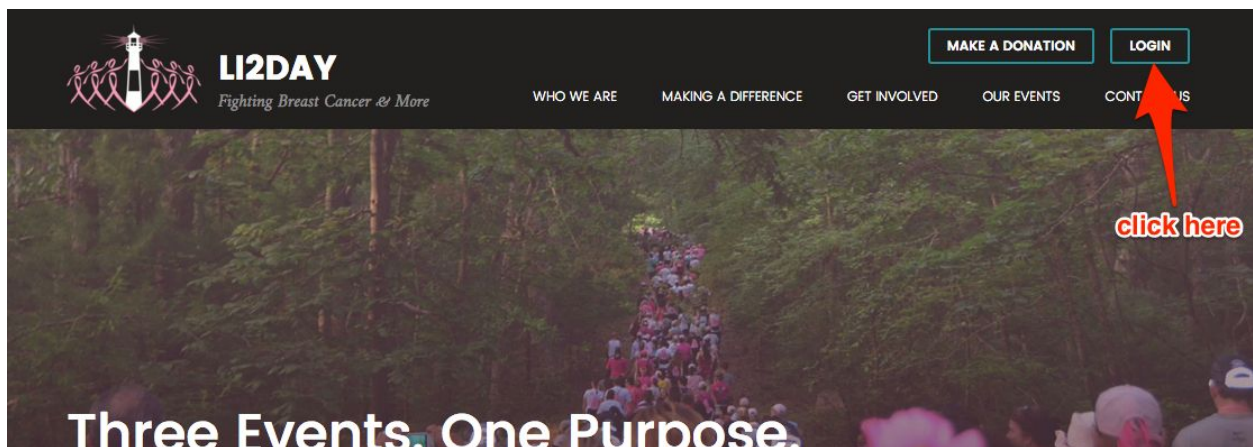

This process requires 2-Steps to complete. The reason is for the security of it so that no one but the user requesting the password reset knows the password.

The user initiates the process by providing their email address and then website will send an email to that email address with a link that the user needs to click. The link will bring the user to a page where they can provide a new password.

Once the website shows that you have successfully changed your password you can login.

### Steps

1. Goto <http://li2daywalk.com> and click on the Login button in the top header.

2. Then on the Login page, click on "Lost Password?"

Log into Your Account

Username

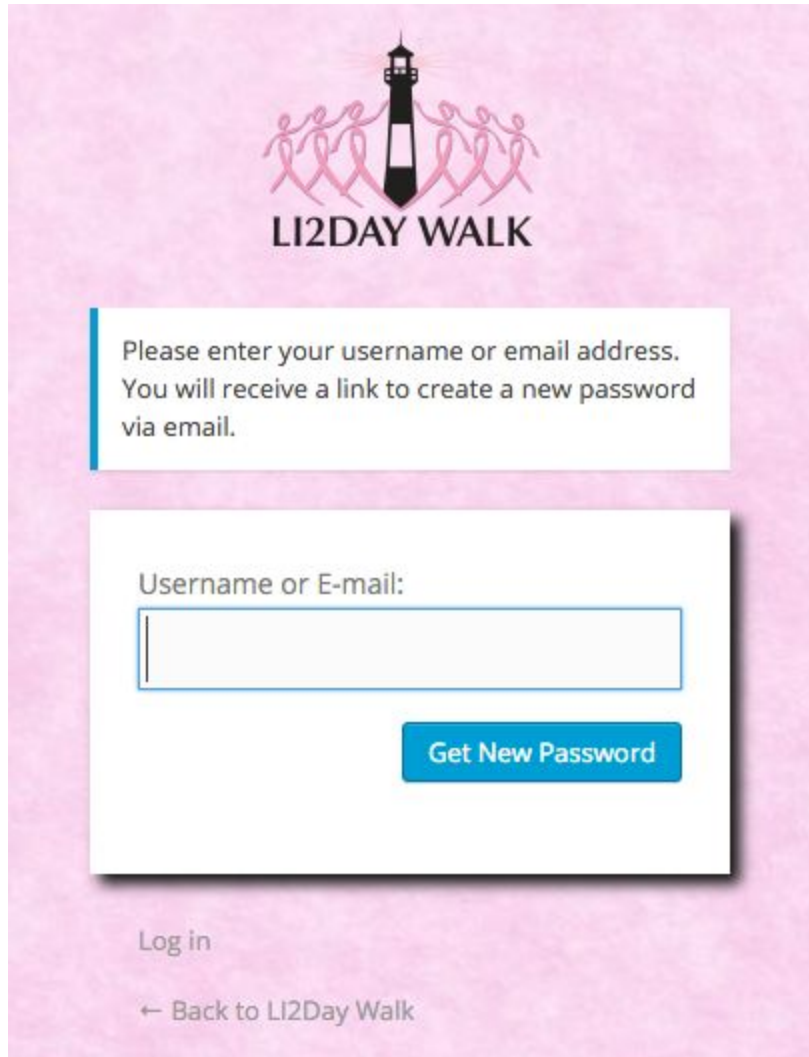

Password

[Lost Password?](#)

**click here**

3. Enter in the email address that you used to register with the website and then click on the 'Get New Password' button.

4. If the email exists on the website, you will get the following screen. **You can't login yet.** You need to first go check your email. There will be an email that looks like the following in which you need to click the link to reset your password. *Check spam folders too if you don't see it.*

Someone requested that the password be reset for the following account:

<http://li2daywalk.com/>

Username:

If this was a mistake, just ignore this email and nothing will happen.

To reset your password, visit the following address:

<<https://li2daywalk.com/wp-login.php?action=rp&key=SFtvJj9y6rR1VMe5li1V&login=>  
>

**click this link**

5. Clicking the link will bring you to a page where you can set your new password. The website will suggest a strong password for you, however you can change that to be whatever you like. Once you have chosen your password then you can hit the 'Reset Password' button.

Enter your new password below.

New password

IV1O8^o@)9VbYq&(

Strong

Hint: The password should be at least twelve characters long. To make it stronger, use upper and lower case letters, numbers, and symbols like ! " ? \$ % ^ & ).
